INTERNSHIP AND PROJECT

❖ **Anjana Infotech -** https://laundryes.netlify.app/
Built a visual appealing and user-friendly landing site for a laundry shop hosted on netlify. I made to showcase the variety of services and features will be provided by the laundry shop.

❖ **Topper World (Virtual Internship) -** https://github.com/Sri-10ran/TWSIP

Developed ATM Model using Java Swing and JDBC and an online voting system with MySQL Database and gained experience in developing user-friendly interfaces and performed basic operations in database.

❖ **College Final year project -** https://github.com/Sri-10ran/LaundryesAndroid

Built an android app **"Laundryes"** for scheduling laundry pickups/drop-offs, online payments and real-time order updates. Integrated Firebase Authentication, Razorpay, and Ola Maps API for service area validation. Enabled complaint submission with photo proof and used Firestore for order and user data management.
